Rakalauv barnehage SA

Articles of Association "Admission of children" revised 11.01.22

Rakalauv kindergarten is open for children aged 1-6 years.

Main admission is initiated in consultation with the Gran Municipality once a year, with the application deadline set by Gran Municipality. The administrator implements admissions. The administrator can govern the division into groups and deviate from admission statutes when reasonably argued.

Admission of children can be done during the kindergarten year if the offer comprises a longer period and there is available capacity in the kindergarten.

The admission district is Sanne school district and Granlund district where Granlund district has priority.

To ensure recruitment and to keep kindergarten teachers in Rakalauv barnehage SA their children is given priority when admitting.

When available capacity the admission district is Gran and Lunner municipality.

Admission routines emphasize the following criteria:

1. Children with disabilities have the right to priority for admission to kindergarten. An expert assessment must be made to assess whether the child has a disability (Kindergarten act §18).

2. Children who have been decided in accordance with the Child Welfare Act § 4-12 and 4-4 second and fourth paragraphs, have the right to priority for admission to kindergarten.

3. Internal changes.

4. Children with delayed school start.

5. Children of kindergarten teachers employed at Rakalauv kindergarten.

6. Siblings of children who are already admitted in Rakalauv kindergarten. With many desires for change, the changes are prioritized according to age.

Children who have temporary or part-time admission and request expanded admission, have the advantage of available capacity.

In case of available capacity, the kindergarten can offer admission to children from the whole of Gran Municipality. 5-year-olds are given priority. The oldest child otherwise has advantages.

«I modige Rakalauv får unga være unger!»
